

TREKKER-X4

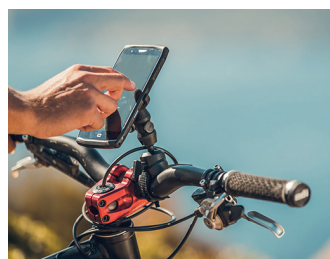

CREATE YOUR LIFE STORY

1 **LIVE** INTENSELY

2 **CAPTURE** CREATIVELY

3 **EDIT** EASILY

4 **SHARE** INSTANTLY

CAPTURE AND SHARE YOUR OUTDOOR ADVENTURES; JUST AS YOU EXPERIENCE THEM, JUST AS YOU FEEL THEM!

Simple to use, fluid and intuitive, the TREKKER-X4 is probably the first phone in the world to have been designed around video while optimising the brand's key promises: it's the most durable in the range, the most waterproof and the best adapted to the outdoor world. But the real beauty of the TREKKER-X4 is without doubt its

ability to combine the best action-cams in an optimised design just 12.8 mm thick. Enjoy an unparalleled video experience, share it and relive all the thrills of your adventures with your loved ones.

PANOMORPH TECHNOLOGY

TO CORRECT DISTORTIONS

Several view angles: 88°, 110°, 140°, 170° / Stabilisation / Hyperstabilisation: horizontal fixing of the shot that compensates for movements of the phone.

X-CAM

AN ALL-IN-ONE VIDEO EXPERIENCE

Native app (designed and developed by Crosscall) dedicated to video shooting, editing and assembly. For intuitive, immediate operation.

OUTDOOR

NO COMPROMISE ON CROSSCALL DNA

Proven durability in the outdoor environment / Drop Test 2 metres / Military standard 12 tests (MIL-STD-810G) / IP68 (2 metres 1 h) / Flash 2x0.5W / Gorilla Glass 5

X-LINK

MOUNTING / CHARGING AND DATA TRANSFER

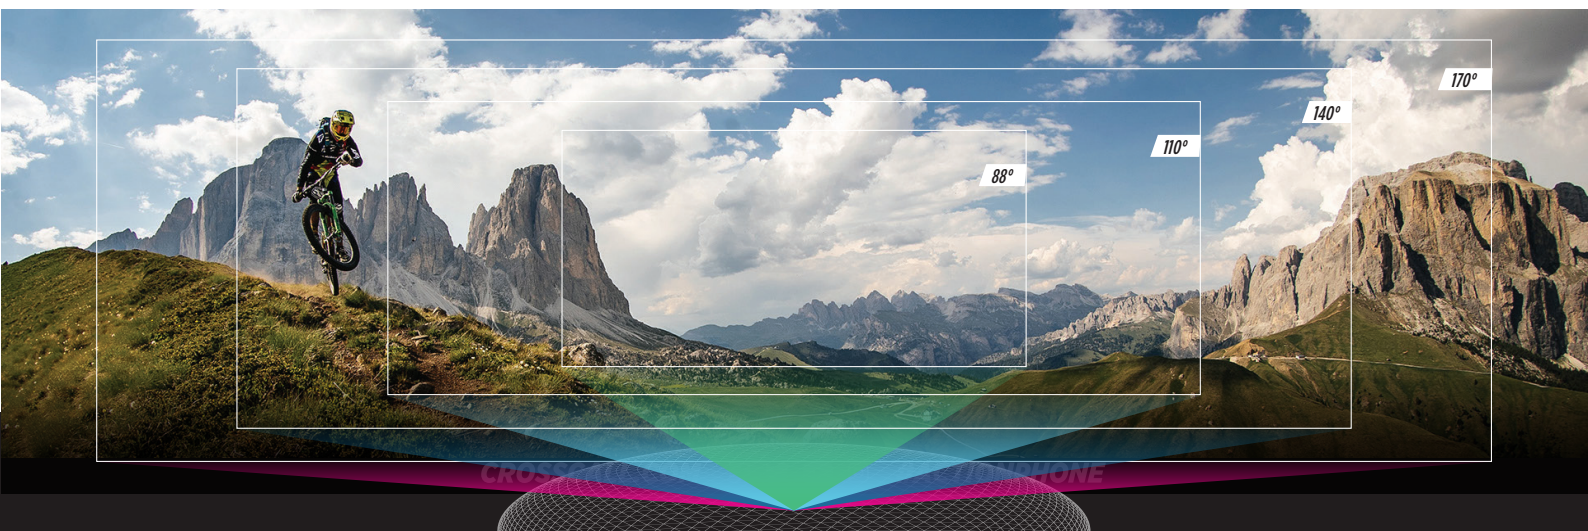

/ Intelligent magnetic connection system to use the TREKKER-X4 with a wide range of accessories. / Improved attachment by the X-BLOCKER, a unique piece of security.

12MP PHOTOS

OPTIMISED PHOTO QUALITY

/ 2 independent 88°/170° sensors to cover all uses / Hybrid autofocus: PDAF (optimal in high brightness) + laser (optimal in low light)

PANOMORPH TECHNOLOGY

Innovative, disruptive technology

PICTURE TAKEN BY

TREKKER-X4

Classic action cam

Panomorph technology involves projecting reality onto a half-sphere then using software processing to rebuild the image (using dewarping), keeping the angle of view while correcting the distortions. It offers wide-angle images, stabilised, closer to the eye's perception, even moved back a little. With panomorph technology, add a new perspective to your shots!

X-CAM: ALL-IN-ONE VIDEO EXPERIENCE

LIVE MORE INTENSELY...

BECAUSE IT'S IDEAL FOR ALL OUTDOOR ACTIVITIES...

WATERPROOF

IP68, 2m 60min, salt water-proof / Gore-tex membrane for waterproofing speakers and microphones

TOUGH

Drop test 2 m onto concrete (6 sides) / Glass front AND rear Gorilla glass 5, 0.9mm thick front - 0.7mm rear / Mounted on silent blocks / Aluminium side bars / Double injection TPU, shock absorber / MIL STD 810.G out of 12 tests

LONG BATTERY LIFE

4400 mAh battery / Outdoor power saving mode for a long, trouble-free video experience. / Quick charging QC 3.0 / Fast charge shielded USB-C cable

... AND ITS MAGNETIC X-LINK CONNECTOR LETS YOU USE IT WITH A LARGE NUMBER OF ACCESSORIES, TO ENJOY THE PHONE'S VIDEO FUNCTIONS WHEREVER YOU GO.

Single-action attachment /
data transfer*
/ Charge*

X-BLOCKER
included
with the
TREKKER-X4

Whether you go skiing, paragliding or jet skiing ... take the TREKKER-X4 with you everywhere with its full range of accessories, then load and transfer your memories simply and instinctively. Be sure to relive all your best moments on video!

CAPTURE CREATIVELY

CROSSCALL INNOVATION

HYPERSTAB AN UNSHAKEABLE IMAGE

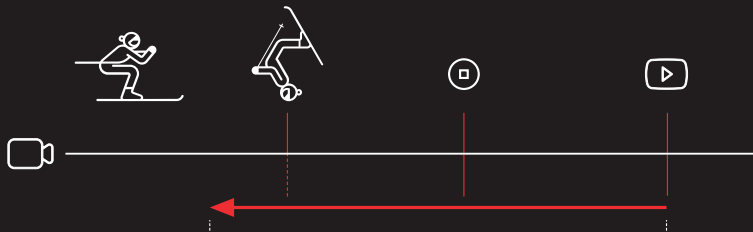

In addition to stabilised mode, the Hyperstab® function lets you make videos that maintain their horizontality. Analysis of the gyroscope data compensates for the movements and vibrations of video capture and thus eliminates unwanted movements of the smartphone. This is the only phone to shoot in 16:9 whatever the orientation of the smartphone. Videos are thus stabilised even during the most extreme uses (trail, mountain bike, skiing etc).

CROSSCALL INNOVATION

DASHCAM: SAVE YOUR PAST ACTIONS!

With this option, your smartphone films continuously. Whenever you want, put the last few minutes filmed into the memory!

OTHER PRECONFIGURED X-CAM MODES

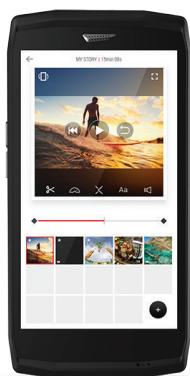

DYNAMIC: to record all outdoor activities in stabilised wide-angle video

SLOW MOTION: slows the image by up to 5 times.

TIME-LAPSE: to edit a video from pictures taken at regular intervals

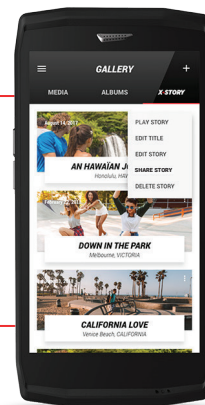

LIVE STREAMING: to share all the wide-angle videos of the TREKKER-X4 "LIVE" on social media

EDIT EASILY

Create your video montages (X-STORY) in the blink of an eye. You're free to add effects, transitions, filters and music really easily and intuitively to bring your adventures to life.

AND ALSO...

12MP PHOTO

Partnerships with image processing experts (Qualcomm®, Immervision®, MM-Solution®, DxO®) / Double camera (170°/88°) / Hybrid autofocus (PDAF + laser)

SOUND

Stereo sound with two dedicated speakers with 88 dB power / Ambient noise cancelling technology

FLASH

Photos with natural colours even with the flash thanks to dual led - dual tones / A powerful outdoor torch that can also be used in video mode.

SECURITY

FINGERPRINT SENSOR
Ability to save up to 5 digital fingerprints to unlock the TREKKER-X4

NFC / SECURE ELEMENT
Natively supported via the security options of your Android OS.

DESIGN

DESIGNED FOR IMPROVED ERGONOMICS AND VIDEO QUALITY

Elegant and dynamic integration of sharp angles, chamfers and more organic shapes on slender lines to improve handling.

CHARACTERISTICS

OUTDOOR CHARACTERISTICS

IP rating	IP 68
Water-resistance	2m / 60min
Dust-resistance	Total
Operating temperature	-25°C / +50°C
Resistance	MIL STD 810G Drop test (6 sides 2 metres) IK04
Mount system	Magnetic mount (900g)
X-BLOCKER	Yes (pulling force 20kg vertical and 16kg horizontal)

PHOTOS

Sensor 1	Sony IMX386 Wide Angle 170°
